

355x2.5x25.4mm Orange 1Net

[View Details](#)

Classification

Cutting Wheel ->Thick Cutting Wheel for Stainless Steel Metal And Steel And Iron

Product Description

Material:	White Alumina
Abrasive:	Normal Abrasive
Shapes:	T41 Flat
Types:	Cutting Wheel
Grain Size:	30#
Cylindricity:	<1

Circular Degree <1

Technics : Sinter

Working Style :Cutting

Transport Package: 25 PCS/CTN 4

Specification 14 inch 355*2.5*25.4

Trademark : KENBO/OEM

Origin :China

HS Code:6804221000

ADDRESS: Economic Developement Area,Yongkang,Zhejiang Province,China.

EMAIL: kingbirdabrasives@foxmail.com

PHONE & WECHAT : +86-151-6791-9567

Production Capacity:10000/Piece

Features:

- 1.Cutting of steel sheets, tube, profiles and full-materials.
- 2.Long life time and sharp

Advantages:

- 1.Economical and competitive cost
- 2.No more times loss due to machine or products changing
- 3.No contamination
- 4.Suitable for cutting metal, steel, alloyed and unalloyed steel, structural steel ,tool steel ,high speed steel ,stainless steel ,acid resistant steel and nonferrous metal and high precision results could be successes.
- 5.High metal removal rate
- 6.Efficient, less materials loss
- 7.Reduced energy consumption

Quality and Service:

1. 20 Years Manufacturing experience and abundant export experience
- 2.ISO 9001 certification
3. Accept OEM
4. Free samples for quality test
- 5.Professional and fast service
